INTRODUCTION

In this, the 63rd year of our business existence, we take pleasure in presenting our 1909 Catalog of Saddlery, Carriage and Sleigh Trimmings, and General Store Supplies.

Our Stock of general Horse Furnishings, Harness, etc., is not excelled in extent or variety by that of any Sad-

dlery Firm in New England.

Portland as a shipping point is <u>most convenient</u>, not only to State of Maine trade, but on account of its many <u>railway connections</u> to all points throughout New Hampshire and Vermont. This is well understood by Dealers in these localities who are desirous of receiving their orders <u>promptly</u> and at <u>favorable Express or Freight rates</u>.

TO DEALERS

This catalog is especially made up for Dealers in the lines of goods herein listed.

Prices mentioned are approximate retail values.

We will be happy to quote net prices to Dealers on any particular articles in which they may be interested.

All orders intrusted to us will have our most careful consideration. Mail us your orders and we will see that they are promptly filled and the right prices made you.

In a catalog of this kind it is impractical to mention everything carried in stock. We <u>invite correspondence</u>

where articles are desired that are not herein listed.

Goods in some instances may vary slightly in detail from the illustrations, owing to continual changes in style. We aim, however, to furnish the latest designs in style or pattern.

TERMS

30 days net on approved credit or 2% cash discount.

No goods returnable without our consent.

Claims for errors, shortages or over-charges must be made within five days after receipt of goods.

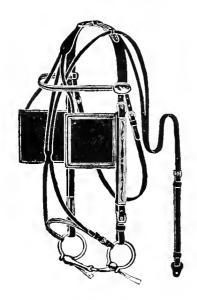

All orders should be accompanied with shipping directions, i. e. whether freight, express or mail.

Packages sent by mail are at purchaser's risk unless registered.

Please address all communications for goods in this department to 264 Middle Street.

Prices subject to change without notice.

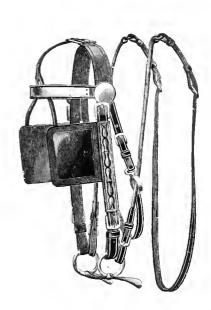

BRIDLES .-

HARNESS.

We make a specialty of Hareness, carrying a large stock of the many styles and grades necessary to meet the demands of the Trade. Everything from the Light Track to the Heaviest Team Harness may be found in our line. We issue annually an illustrated descriptive catalog of these goods which we will be happy to send to the Trade upon application.

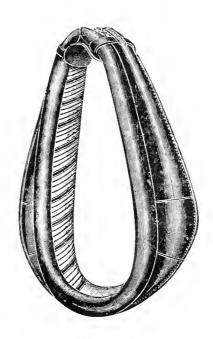

HORSE COLLARS.

Measurements.

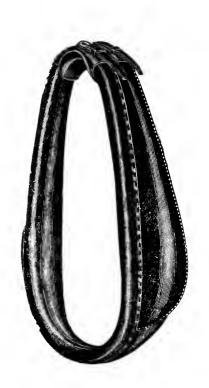

To measure a collar, place the end of the rule against the inside of the top of the collar and measure to the inside of the rim at the throat. This will give the size of the collar in inches, which should correspond with the measurements of the horse's neck.

No. 29.

THE PEERLESS CHECK HOOK.

The Name describes it—the strongest, most practical and the finest looking Safety Check Hook on the market.

It will absolutely prevent the Check becoming accidently unfastened. It has no spiral spring to weaken or wear out, and cannot get out of order. It is impossible to straighten it out by the strain of the checkrein. It is highly ornamental and is distinctly the right thing for a fine harness. Its adoption by many of the large

wholesale manufacturers of fine harness proves it to be a practical article. It makes a strong talking point in selling harness. It is highly endorsed by prominent horsemen in all parts of the country. It is made in four styles of finish—rubber, nickel, gilt and imitation rubber—and in three sizes, suitable for any driving harness saddle.

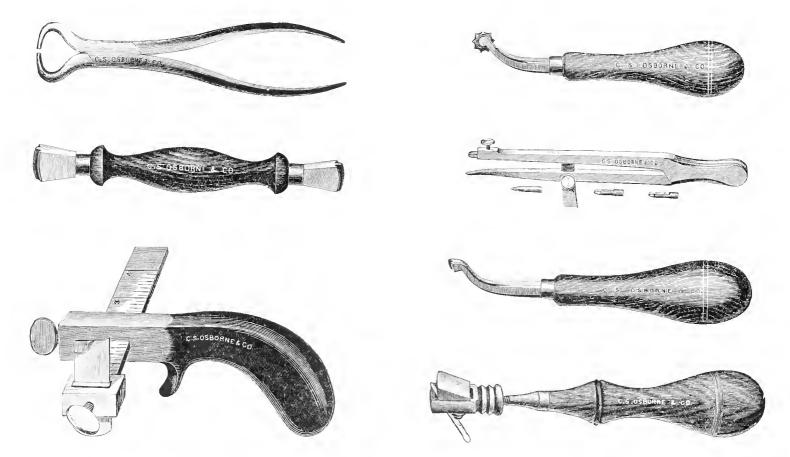

CONSTRUCTION.

The spring is a flat piece of steel (instead of the usual spiral), so secured to the hook as to render it imposible of working loose. This spring is burnished on the upper side so that there is no friction to wear away the trigger in opening and closing it. The checkrein is bound to draw from the strongest part of the hook, as it cannot possibly slide back and draw over the point of the hook thus getting the leverage which causes ordinary hooks to straighten out and break. It is easily opened to uncheck and easily closed.

Size No. 1. For $2\frac{1}{2}$ or $2\frac{3}{4}$ inch saddles. Size No. 2. For 3 inch saddles. Size No. 3. For $3\frac{1}{2}$ or 4 inch saddles. Nickel, gilt or imitation rubber. Price each, Genuine rubber.

SALT BRICKS AND FEEDERS.

This method of feeding pure salt to stock is growing in favor daily. It enables the animals to gratify their want for salt whenever their systems require it. When fine salt is mixed with teed it must be swallowed, whether too much or too little, but this method allows them to satisfy their hunger according to their desires. The bricks are made of pure salt, which does away with the impurities found in the rock salt which heretofore has been generally used.

Galvanized feeders. Price each, \$\,50\$ Salt bricks for above. Price each, 25 Roto feeders. Price each, 25 Salt bricks for above. Price each, 25

BASE BALL GOODS.-

D. & M. Official League Balls.

No. 190.

The D. & M. official league ball is guaranteed to conform exactly to the specifications and requirements of the National and American Leagues. It is made of the very best material that can be procured throughout its construction and is second to none in resiliency and durability and is officially adopted by many professional and amateur leagues. All official league balls having our trade mark and sealed are warranted to measure 9 inches in circumference, weigh 5 ounces and guaranteed to last a full game of 9 innings without losing their elasticity or shape and without ripping unless misused. Each ball is wrapped in goldfoil, put in a separate box and sealed. \$1.25

D. & M. Base Balls.

This entire line of base balls is made of most carefully selected material and by skilled workmen with a view to giving the purchaser the best value for his money. These balls like the rest of the D. & M. goods are equal if not superior to any other goods. Anyone purchasing the D. & M. balls will have the factory guarantee that they will be found just as represented.

D. & M. College League.
No. 180.

This ball is made with the same care and workmanship that is employed in the manufacture of our league balls. Made of all-wool yarn with I ounce of the best para rubber in centre, genuine horsehide cover, regulation size and weight, and is exactly in accordance with the National and American League requirements. Each ball is put in a separate box and sealed. Warranted to last a full game. Price each, \$1.00

D. & M. University League. No. 165.

This ball is made of all-wool yarn, horschide cover. Is regulation size and weight. Put in individual boxes and sealed, and is superior to any other 75c. Ball on the market. Very lively.

Price each. 75 cents.

The entire

D. & M. Cock of the Walk. No. 162.

This ball is made of good material, horsehide cover, regulation size and weight. A high grade ball for the money. Each ball put in a separate box and sealed. Price each, 25 cents.

You are throwing 25c away every time you pay more than \$1.25 for an official league ball. D. & M. ball is perfection.

Why pay more?

BASE BAL GOODS.

D. & M. Professional Catchers' Mitts.

No. 678.

This mitt is made entirely of the finest quality Cordovan calfskin which will not harden by wetting. It is padded with the best asbestos padding, hand sewed and molded in such a manner as to form a deep pocket. Made with our latest improved lacing device whereby the back is laced to the palm allowing the player to adjust the pad to suit his fancy. The thumb and top of the mitt are protected by a rubber

guard (patented) extending entirely around the thumb and front of the mitt. This guard is riveted to the edge of the mitt, keeping it in perfect shape and preventing the ball from coming in contact with the fingers. The thumb is supported and a much better pocket is formed by our improvement (patented) by which the thumb is laced to the hand of the mitt, forming a deep pocket. The seams between the thumb and hand are reinforced by our improvement (patented April 30.

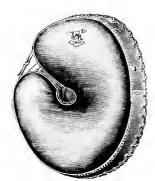

1901) consisting of a piece of horsehide extending over the seams between the thumb and hand and thoroughly fastened, preventing all possibility of ripping. In material, workmanship and construction this mitt cannot be surpassed.

Price, \$7.00

SUCCESS EMERY GRINDER.

(Foot Power.)

3,000 revolutions per minute attained by a simple and easy motion of the foot.

Just like a Power Machine.

THE GREATEST GRINDER ON EARTH for grinding drills, castings machine parts, knives, scissors, and all kinds of tools. It is just the thing for bicycle repairmen, blacksmiths, jewelers, carpenters, butchers, harness makers, wagon makers, mechanics, farmers and miners.

GRINDS TWICE AS FAST AS ANY GRINDSTONE. Needs no turning. One person does it all.

DESCRIPTION.

This machine when set up stands 4 feet high; the upright or standard is made of inch tubing, and is very solid and strong. The emery wheel is of the highest grade, and is 8 inches in diameter by 11 inch face. It is supplied with a suitable and substantial rest. It has no belt to slip, loosen, or break, neither has it lead gear teeth to wear out and hind. The movement of the toot operates a ballratchet, which sends the emery wheel spinning easily at 3,000 revolutions per minute. The machine screws to the floor and wall, and is quickly and easily set up. Fach ma-lime is crated for shipment

TOOLS.

Eagle No. 10 Screw Driver.

8 inch, black finish.		.75	each

TOOLS.

VICTOR UNIVERSAL PLIER.

Wire cutter on handle side of fulcrum.

This is the only Universal plier and wire cutter on the market, the upper jaw being built on such lines that it will push anything its entire length or width to the straight jaw, thus giving a better hold by 50 per cent than any other plier. It will adjust itselt to any taper, half round, three square or parallel. In taking hold of a taper, three square or parallel, the flat side always lays itself to the straight jaw. It will take in a pipe from $\frac{3}{8}$ inch to $\frac{1}{4}$ inch in diameter. In applying it to a pipe, the harder you press or pull the deeper the plier bites; it positively will not slip owing to the position of the teeth. Price, § .75 each.

NO. 2 PLUG PLIERS.

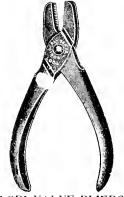

Price each,

5 .20

NO. 75 PLIERS.

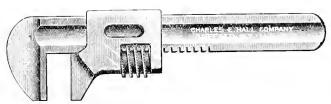

Hand forged, has long thin jaws $\frac{1}{18}$ inch thick, to grasp edge and small lock nuts, etc., where there is only a narrow space to get at them. 7^{-1} ₂ inches long over all. Price each, 8.75

CARRIAGE PUMPS, BABY CARRIAGE TIRES AND TOOLS.

No. 80 PUMP. Price, \$1.50 each.

No. 90 PUMP.
Price, without gauge, \$2.50 each.

No. 40 PUMP.

Steel barrel, $1\frac{1}{4}x18$ inches.

Price \$1.00 each.

For a long time furniture dealers and repair men have felt the need of a machine with which they could apply rubber tires to baby carriages, go-carts, Irish mails, velocipedes, tricycles, etc., without wasting material. This can be accomplished only by using the "Little Giant." They are put on much tighter than is possible in any other manner. It does not require a mechanic to operate the machine, and after a little experience, one man can put on a full set in fifteen minutes, no mater how small the wheels may be. Circulars giving full directions mailed on application. Where the wheels are sent in to us, we make up tires to fit.

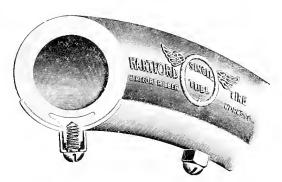

BABY CARRIAGE TIRE WIRE.

Price, 20 cents per pound.

BABY CARRIAGE TIRE RUBBER.

😤, 👬 ½, and § inch. High grade quality, 50 cents per pound.

CARRIAGE TIRES, INNER TUBES AND BUMPERS.

CARRIAGE WASHERS, CYLINDER OILS, ETC.

THE "IDEAL" CARRIAGE WASHER.

It is an entirely new and practical device for the use of those who have vehicles of any description to wash. By means of this machine a comfortable and easy way is provided for doing an otherwise disagreeable task. The water, however cold, will not benumb the hands as they are not in contact with it. Gauntlets may be worn if desired, and the "splashing" of the usual method of washing is reduced to a minimum.

The washer will pay for itself many times over in one season, but as a matter of fact the construction is such that it will last a lifetime.

Machine fits any ordinary hose connection, and works equally well with city water works, wind mill, tank force pump, hydraulic ram, or penstock. Worth many times its cost in in using water from a pail.

When attached to a hose, water runs through the sponge continually, keeping it free from grit or sand and making it Price, \$3.00 impossible to scratch the varnish.

RELIANCE OIL.

A high grade gas engine cylin der oil with high viscosity. Re liance oil has been thoroughly tested out and wherever used has given perfect satisfaction. Reliance oil develops and maintains the highest efficiency of a gas engine. Put up in barrels, half bariels, ten and five gallon jacketed cans, and in one gallon tins as shown in cut.

ι gallon cans.	5 .75 each.
5 gallon cans.	3.50 each.
to gallon cans.	6.50 each.
12 barrel, per gallon.	.60 each.
i barrel, per gallon.	.55 each.

WASHER FOUNTAIN.

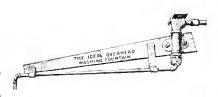

The washer fountain carries hose around vehicle and consequently does not kink. Easily attached to ceiling in centre of wash floor by two ordinary wood screws. Arm is 6 feet long, making a 12 foot circle in one revolution.

"Ideal" Overhead Washing Fountain. Price each, \$12.00

"Ideal" Overhead Washing Fountain, epuipped with

"Ideal" carriage washer.

Price each. 11.50

"IDEAL" AUTOMATIC SHUT=OFF OR WATER SAVER.

When the operator drops the hose, the "Ideal" automatic shut-off shuts off the water instantly. Fits any 1/2 or 3/4 inch hose. Made of brass.

Price, 12 inch, \$1.50 each. 34 inch, \$1.75 each.

PANHARD OIL.

In selecting Panhard oil for the lubrication of automobiles, motor boats and all makes of gasoline engines, you can feel perfectly safe, for the reputation of the manufacturers stands back of it. Put up in barrels, half barrels, 10 and 5 gallon jacketed cans and in 1 gal-Ion tins as shown in cut.

1	gallon	cans.	\$1.00	each.
5	gallon	cans.	4.25	each.
0.1	gallon	cans.	8.00	each.
1	barrel,	per gallon.	.70	each.

i barrel, per gallon. .65 each.
